

# Global Slavemasters and Mass Murderers Are NOT Liberators!

Boko Haram and associated Islamic fundamentalist forces are a nightmare for the people. But with the “international community”—imperialist powers and their lackeys—moving to “intervene” in Nigeria and move on Boko Haram, global outrage at the kidnapping of Nigerian schoolgirls is being mis-channeled into lining up people behind even worse crimes.

Which country in the world, from its beginnings to the present time, has the bloodiest history of genocide, slavery, invasions, coups, installing and backing brutal regimes, bombings, massacres and mass destruction, including the use of nuclear weapons? Which government imprisons its own people, and in particular its minorities, at the highest rate in the world?

U.S. imperialism sits atop a world of exploitation and oppression, including the oppression of women. Its drones and military, its torturers and spies exist to enforce that.

**NO GOOD CAN COME FROM U.S. INTERVENTION OF ANY KIND.**

Bangladeshi child laborers work at a balloon workshop in Kamrangir Char, 2009. Industries from designer clothing to recycling, and everything in between, contracted by the U.S. and other imperialists to countries like Bangladesh, India, and Africa, involve vicious exploitation and child labor.

Fallujah, Iraq, 2004.

Pelican Bay Prison, California, USA.

The interests, objectives, and grand designs of the imperialists are not *our* interests—they are not the interests of the great majority of people in the U.S. nor of the overwhelming majority of people in the world as a whole. And the difficulties the imperialists have gotten themselves into in pursuit of these interests must be seen, and responded to, not from the point of view of the imperialists and their interests, but from the point of view of the great majority of humanity and the basic and urgent need of humanity for a different and better world, for another way.

**This imperialist system needs to be swept off the face of the earth. And it can be.**
