

# WE NEED TO OVERTHROW, NOT VOTE FOR, THIS SYSTEM.

**Donald Trump**—fascist pig who openly says “torture works, OK folks?” and whose leering nastiness toward women and crude “America Number One” chauvinism are an extreme and grotesque concentration of what America has always stood for.

**Bernie Sanders**—tells you that overcoming inequality is as easy as clicking to donate and pulling a lever, when what it’s really doing is leading people away from an *actual revolution* that is needed and leaving intact the *system* and *empire* that produces injustice, oppression and suffering around the world.

**Ted Cruz**—Christian fascist lunatic who advocates banning women from getting abortions for *any* reason, including victims of rape and incest, and calls for “carpet bombing” of Arab countries that would “make the desert sands glow.”

**Hillary Clinton**—proven repeat-offender *war criminal* with the blood of hundreds of thousands of people around the world on her hands... a REAL “super-predator”\* thirsting to run a predatory *system*.

\*Campaigning for Bill Clinton’s re-election in 1996, she referred to Black youth being targeted under the genocidal mass incarceration program expanded under Clinton as “super-predators.”

**None** of these or any other ruling class representatives have any answers in the interests of the people to the huge problems facing humanity. People need to open their eyes to the reality that if they vote, this will NOT stop the system from committing horrific crimes—instead, they will become *complicit* in those crimes.
