It is time and way past time to stand up and say **NO MORE!** Our youth are being treated like criminals—guilty until proven innocent, if they can survive to prove their innocence. The vigilante murder of Trayvon Martin concentrates the racial profiling that leads into more than 2.4 million people being warehoused in prison and the millions more who are treated like second-class citizens even after they've served their sentences. April 19th must be a day of standing up and saying **NO MORE** to all of this.

Join us to organize a day of teach ins and rallies in high schools and colleges; a day of youth, tired of being demonized, taking to the streets—joined by many others from different backgrounds, races and nationalities who stand with them; a day of speaking bitterness to the way the whole criminal justice system abuses millions of people. All saying in a powerful voice: **NO** to mass incarceration and all its consequences.

**NO MORE TRAYVON MARTINS! NO MORE OSCAR GRANTS!
NO MORE 2.4 MILLION PEOPLE WAREHOUSED IN PRISON!
NO MORE 1 IN 8 BLACK MEN IN THEIR 20'S LOCKED DOWN IN JAIL!**

MASS INCARCERATION + SILENCE = GENOCIDE
