The Bush Regime

The Bush Regime has:

- **Committed many other crimes against the people, including the abandonment of tens of thousands of people after Hurricane Katrina; the repression of immigrants; the denial of basic rights to women and gay people; the suppression of science at great cost to the environment; and constant attacks on the separation of church and state.**

The Bush regime must be held politically accountable for these unacceptable and unconscionable crimes and driven from office—NOW!

WARNING: This regime is extremely dangerous and must—and can only—be stopped by millions of people mobilized in massive and determined, independent, political opposition.

THE WORLD CAN'T WAIT!
