**The Trump/Pence regime is consolidating a fascist program that will mean unimaginable horrors for humanity and, as part of that, will bring down a reign of terror on top of centuries of savage oppression of Black people. Carl Dix, drawing on the new synthesis of communism developed by Bob Avakian, will speak to how this regime was spawned by the system of capitalism/imperialism and why everybody must throw in to drive it out of office NOW, as part of getting ready for revolution!**
