

August 22nd Coming onto the Stage

A Force Powerfully Representing

FOR REVOLUTION

This August 22nd a growing social force will be stepping onto the stage, a force from below, announcing themselves with the message **BA Speaks: REVOLUTION—NOTHING LESS! Join Us!**

If you hate the way the system destroys the bodies and spirits of people all over the world and you are looking for a way out of this madness

If you can't take another day of pigs murdering black and brown people... of women being called bitches and hos and told they are nothing more than breeders and sex toys... of immigrants being driven from their homelands, families torn apart while being super exploited... or youth being brutalized and bullied for being gay... or how this system is ravaging the planet...

Then you need to get serious: you need to get into BA, get your **BA Speaks: REVOLUTION—NOTHING LESS!** T-shirt and join the Revolution Club in powerfully representing for revolution. Scores of us will gather and together manifest a force for revolution, we will be defiant, we will be bold. **BE THERE.**

These T-shirts speak to and resonate with the sentiment of the moment, but in fundamental terms, **BA Speaks: REVOLUTION—NOTHING LESS!** represents the real and scientific answer to these horrors—of why the police keep murdering our youth, why there is no justice and the murdering cops get away—and most important, what it will take to get beyond not only police terror and the oppression of Black people, but all of the myriad horrors, madness, and needless suffering that stem from this capitalist-imperialist system, its wars of empire, its criminalization of immigrants, its wanton destruction of the environment, & horrendous attacks on & degradation of women around the world.

Bob Avakian said in his 2014 New Year's Call to Revolution:

“Our lives should be, and can be, about something with meaning and purpose that is really worth living for and fighting for. Why should we do what they want us to do—killing and crippling each other, trying to beat down or beat out each other, ending up in jail, or paralyzed, or dead at an early age—instead of joining together to go up against the system that has got us in this mess in the first place? Why should we accept the lies that people who are of a different color, or live in a different place, or speak a different language, or love in a different way, are less than human and deserve to be locked up, or beaten down, or murdered? Why should girls and women be treated like things, whose only value is to be used for sex and having babies? Why should we go along with the sickening culture of this system which says money is more important than people, and people are only a means to make money? Why should we believe that "it's all in god's hands," when all this horror and suffering is completely unnecessary and could be ended? Why should we accept the way things are, or just try to make things a little bit better, still living within this system that will keep on destroying the lives of human beings, and denying a decent future to the youth, all over the world?”
