Some of the hundreds of thousands of women around the world who have died because they were denied access to safe and legal abortions

The world is a horror. It doesn't have to be this way. It is not a matter of human nature, but owing to the workings of the capitalist-imperialist system. Because of the work Bob Avakian has done, there is a viable and much better alternative and the strategy to achieve a whole new world.

This will only happen if people devote themselves to making it happen.
