

STOP!

Wars of Empire,
Armies of Occupation,
and Crimes Against
Humanity!

The U.S. maintains its empire with the world's most powerful military and thousands of nuclear weapons—carrying out threats, invasions, and wars across the globe.

U.S. occupying troops in Fallujah, Iraq, where the U.S. carried out a massive air and ground assault that killed more than 2,800 Iraqis and forced 200,000 from their homes, November 2004.

The U.S. backs and is directly involved in Saudi Arabia's genocidal war in Yemen, which has killed or injured thousands, including 5,000 children, and is starving eight million Yemenis. Above: after Saudi bombing in Sana'a, Yemen, 2016.
