

***Why is the Supreme Court planning to take away abortion rights on a national scale?***

***Can the people pouring into the streets really STOP this from happening? How?***

***What does the battle for abortion rights have to do with other kinds of injustice?***

***Is a revolution really needed, and could it really be made in a time that seems so full of horror and hopelessness?***

***The RNL—Revolution, Nothing Less!—Show covers all that and more***

It brings alive the real connections between the life-and-death battle for abortion rights and other outrages in society: from the capitalist-imperialist plunder of the environment... to the wars and invasions, including by *this* country... to the continued murder of Black, Latino and Native American people by the police, and the whole system of institutionalized white supremacy... to the persecution of immigrants... and to all forms of gender oppression.

It lets you know about the need for, and the real possibility of, REVOLUTION. It introduces you to the leadership and work of Bob Avakian, the revolutionary leader and author of the new communism, who has brought forward a strategy for revolution—in these times—and written the *Constitution for the New Socialist Republic in North America*, a sweeping vision and concrete blueprint for a new, emancipatory society. It connects you to the Revolution Clubs, who are organizing now for this revolution.
