

STOP the Fascist Attacks and Demonization of LGBTQ People!

WE REFUSE TO ACCEPT THIS SYSTEM'S FUTURE!

A Better World Without Oppression and Exploitation Is Possible

NOW IS THE TIME TO GET ORGANIZED FOR A REAL REVOLUTION

“Shaping up before us now are two fundamentally opposed futures: Something Terrible, Or Something Truly Emancipating. And this truth rings out now more powerfully than ever: Which future we get depends to a great extent on what we do.”

—from the proclamation *WE ARE THE REVCOMS*

Fascist mobs amassed at schools and school board meetings. Over 525 anti-LGBT bills introduced in 41 states by fascist lawmakers, with more than 75 signed into law. Medical and psychological care for trans youth and adults outlawed. LGBT people's history, stories and even existence purged from schools and education. Youth who are different, questioning, unsure about their gender or sexuality taught to hate themselves and to harm themselves.

This is FASCISM. It has direction and momentum. And it's part of a larger Christian fascist agenda of white supremacy, enslaving women through forced motherhood, and rule through open violence and terror. We should take them very seriously when they say that “transgenderism must be eradicated from public life entirely.”

These fascists are moving rapidly to lock this future into place, with a social base of millions prepared for whatever violence they deem necessary. The Democrats are trying desperately and impossibly to hold this oppressive system together as it's always been. And they are working to keep you out of the streets, relying on the normal channels which the fascists are shredding; stuck in the confines of the BEB—Bourgeois Electoral Bullshit. This is all headed to something truly terrible!

But that's not the only future that's possible—a better world without oppression and exploitation IS possible! This will take an **actual revolution** to overthrow the system of capitalism-imperialism which has

the patriarchal oppression based on gender and sexual orientation woven into its fiber and functioning. To bring into being a society based on the *Constitution for the New Socialist Republic in North America*, authored by the revolutionary leader, Bob Avakian. As a part of building up a whole different emancipating economic and political system, the Constitution states that the new revolutionary society will **“overcome all ‘tradition’s chains’ embodied in traditional gender roles and divisions, and all the oppressive relations bound up with this, in every sphere of society..”**

Because of the deep divisions among the rulers, and the way this whole society is being ripped apart, this revolution has become *more* possible. Now’s the time to organize for a real revolution!

As part of building up the forces for this revolution, people need to be rising up *now* to resist the crimes of this system, and defending people from attacks on their rights and their lives by racist, woman-hating and anti-LGBTQ thugs, in and out of government. The revcoms are organizing this and aim to unite everyone who cares about the future. Take the future into your hands! Be part of this!

“Instead of being a tail on the Democratic donkey—with its attempt to keep this monstrous system going, and to deal with the growing fascist danger, by relying on the ‘normal procedures’ of this system and doomed efforts to ‘heal the divisions’ that are deepening every day—people need to *work for the revolution that is urgently needed*, and deal with the fascist danger as part of doing that.” —Bob Avakian

DONATE to the \$100,000 fund drive to put REAL REVOLUTION on the map! The whole world needs to know there is a force working for this revolution *now*—a force serious about bringing a whole new world into being with a strategy, leadership and plan necessary for this revolution.
