PUT REVOLUTION ON THE MAP IN 2023!

September 4, 2023

As the world burns, do you hunger for a future fit for humanity and the diversity of life on the planet?

Threats of nuclear Armageddon, police murder after murder after murder, the right to abortion gone, anti-LGBTQ terror building, the extreme environmental danger... All this flows out of *this* system of capitalism-imperialism. And all this will only get worse unless and until we make a revolution to *overthrow* this system!

Donate to help put this revolution on the map!

Speaking to how this revolution has become *more* possible, the revolutionary leader Bob Avakian has said, "This is one of those rare times and circumstances when revolution becomes possible, not just because this system is always a horror, but because the crisis and deep divisions in society now can only be resolved through radical means, of one kind or another—either radically reactionary, murderously oppressive and destructive means or radically emancipating *revolutionary* means."

But wrenching a *revolutionary* opening out of these great storms depends to a great extent on what *we*—on what *you*—do now.

Building up the forces for revolution—to impact all of society... to change how masses of people see things... to compel every institution to respond—this *requires* your financial support.

We revcoms, revolutionary communists, are fighting for a real revolution—and a whole new emancipating way to live, based on the *Constitution for the New Socialist Republic in North America*:

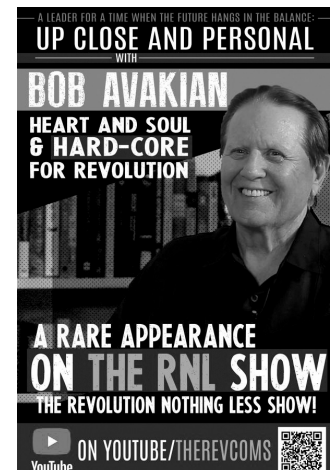

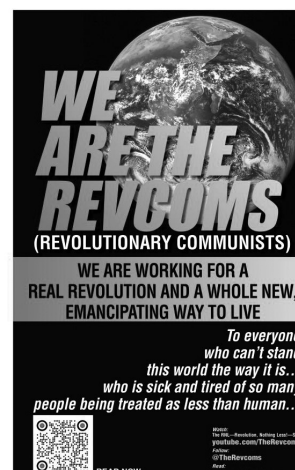

A whole different way of living is possible: a whole different way to organize society, with a radically different economic foundation and political system, emancipating relations among people and an uplifting culture—all of this oriented to meeting the basic needs and fulfilling the highest interests of the masses of people.

—from *We Need and We Demand: A Whole New Way to Live, A Fundamentally Different System*

We are working urgently to spread this everywhere to put this revolution—this vision—on the map. This needs funding on a major scale.

At the core of putting this revolution on the map:

These three things taken together break down the revolutionary strategy that could actually win—a plan to bring forward and lead thousands and then millions to make revolution to defeat this monstrous system. They introduce you to the leadership for this revolution in Bob Avakian. They lay out a concrete vision for a whole new way to live. And provide a scientific method to confront the difficult problems in making revolution.

At a time when the very fate of the planet is in the balance... at a time when there is a force willing to stand up and say, "WE will dare to seize a future fit for humanity"... there is *nothing* more real or meaningful to give your money to!

If the determination to wake those who just want to sleep, if the courage to stand against the powers that be, if the bold resolve to seize this rare time so that humanity can be free... if this moves and provokes you, donate to the real revolution.
