# Mission Statement

**WE ARE WORKING FOR A REAL  
REVOLUTION AND A WHOLE NEW  
EMANCIPATING WAY TO LIVE**

**To everyone who can't stand this  
world the way it is...** who is sick  
and tired of so many people being  
treated as less than human...  
everyone who hungers for a world  
without oppression, exploitation,  
poverty, and destruction of the  
environment... everyone who has  
the heart to fight for something  
that is really worth fighting for:  
**YOU need to be part of this  
revolution now.**

**STOP** The Genocidal Persecution, Mass Incarceration, Police Brutality and Murder of Black and Brown People!

**STOP** The Patriarchal Degradation, Dehumanization, and Subjugation of All Women Everywhere, and All Oppression Based on Gender or Sexual Orientation!

**STOP** Wars of Empire, Armies of Occupation, and Crimes Against Humanity!

**STOP** The Demonization, Criminalization and Deportations of Immigrants and the Militarization of the Border!

**STOP** Capitalism-Imperialism from Destroying Our Planet!

**This system of capitalism-imperialism is the source of all the outrages and madness** that people are subjected to, here and all over the world—and it is long past time it be swept off the face of the Earth.

**Revolution is even more possible in the time we live in now.** The fact that this system, in this country, has taken the extreme expression of bringing a *fascist regime* to power is a manifestation of the thoroughly rotten and illegitimate nature of this system as a whole—and the fact that *the ruling class in this country can no longer rule in the way it has for generations, as a unified ruling class*. Society is ripping apart in ways that can no longer be covered over or held together. Things that once seemed impossible are now happening all the time. **In this situation, the forces for the revolution that is urgently needed could grow, quickly, from small numbers to thousands, and then millions, and get in position to go for the whole thing.**

To seize this time, throughout society we are organizing:

**THE REVCOM CORPS For The Emancipation Of Humanity**

# We are united around two principles:

## 1. Humanity Needs Revolution and The New Communism brought forward by Bob Avakian (BA)

## 2. Fight the Power, and Transform the People—for Revolution

**Revolution is not small changes** that leave this system in place and in power. **Real revolution means** defeating the violent enforcers of this monstrous system; abolishing this system, with all its oppressive institutions, and its governing U.S. Constitution; and establishing a far better system, based on the *Constitution for the New Socialist Republic in North America*, written by Bob Avakian—bringing into being a society, and ultimately a world, free from all forms of slavery, all exploitation and oppression based on class, race, sex, and gender, all relations in which one part of humanity is subordinated to and dominated by others.

**The New Communism** brought forward by Bob Avakian (BA) has further developed, and applied, communism *as a science*. It builds on the lessons and accomplishments of past revolutions but also breaks with and discards a lot of wrong thinking, wrong methods, and wrong practices, that seriously undermined the first wave of communist revolutions. What BA has developed is a whole new framework for human emancipation that is *very different*, and *much better* than what came before. Bob Avakian is completely different from the endless stream of bourgeois politicians who are put forward as “leaders.” He is someone who is heart and soul, hardcore serious about a revolution where people can get all-the-way free. **We follow, spread, and fight for this leadership because it is our greatest strength to be able to make an emancipating revolution.**

**Fight the Power, and Transform the People—for Revolution** is a strategic approach we apply in all that we do. Shaking up the whole country and waking people up to the need and possibility for revolution... waging fierce struggle to break people out of the bullshit ways of thinking and acting... uniting with and mobilizing people to stand up against the injustices and outrages perpetrated by this system... organizing to defend the people from attacks on their rights and lives... developing new leaders who take up the revolutionary road, the scientific method, and goal of the new communism charted by BA. **All with the aim of achieving the “three prepares”: prepare the ground (the situation in society), prepare masses of people, and prepare the organized leadership, for the all-out revolutionary struggle.**

# When YOU Join The Revcom Corps

- You begin working to spread this revolution while learning
- You learn to work together with people just like you, and people who are nothing like you but that they share the common cause of getting humanity free.
- You get training and grounding in a scientific understanding of what this is all for (The Emancipation of Humanity), and the strategic approach to revolution, as you advance as a revolutionary leader.
- You can have the powerful impact that you can't have alone— as part of a growing, organized, disciplined, bold and fearless force influencing and attracting thousands more to become fighters for revolution and go on to lead millions to actually make revolution, IN THE TIME WE LIVE IN NOW!

Leading into the Civil War in the 1860s, the election of Lincoln as President was the “last straw” that propelled the slave-owners in the South to break with the “United States” and wage war to maintain their slave-based Confederacy. **Today, for those opposed to slavery and oppression in every form, this election of the fascist Trump must be the “last straw” which propels a revolutionary struggle to break with, and bring down, this whole system which, as I have shown over and over again, rests on ruthless exploitation and murderous oppression, and which has now given rise to this fascism, as the direct political descendant of the slave-owning Confederacy.**

–Bob Avakian

# POINTS OF ATTENTION FOR THE REVOLUTION

Live By and Fight for the Points of Attention, The Code of the Revolution!

**1. We base ourselves on**  
and strive to represent the highest interests of humanity: revolution and communism. We do not tolerate using the revolution for personal gain.

**2. We fight for a world where ALL the chains are broken.**  
Women, men & differently gendered people are equals and comrades. We do not tolerate physically or verbally abusing women or treating them as sexual objects, nor do we tolerate insults or "jokes" about people's gender or sexual orientation.

**3. We fight for a world without borders,**  
and for equality among different peoples, cultures and languages. We do not tolerate insults, "jokes" or derogatory names about a person's race, nationality, or language.

**4. We stand with the most oppressed**  
and never lose sight of their potential to emancipate humanity —nor of our responsibility to lead them to do that. We work to win people of all backgrounds to take part in the revolution, and do not tolerate revenge among the people.

**5. We search for & fight for the truth**  
no matter how unpopular, even as we listen to and learn from the observations, insights and criticisms of others.

**6. We are going for an actual overthrow**  
of this system and a whole better way beyond the destructive, vicious conflicts of today between the people. Because we are serious, at this stage we do not initiate violence and we oppose all violence against the people and among the people.

# Membership Responsibilities

**The Revcom Corps is made up of people who have come together to help fulfill the greatest need: making revolution and emancipating humanity. They have dedicated themselves to this—with great seriousness and great love; with great determination and great passion.**

**Members don't "look out for #1 (self)";** we share the good and the bad, and look out for each other. Our strength is in our collectivity, and our collective mission and purpose—not in acting as a bunch of individuals doing their own thing.

- We live by, and hold each other responsible to, the *6 Points of Attention For The Revolution*. This is the "code" of the revolution: the principles of morality, the means and ends, and the relations between people that we in the Revcom Corps stand for, in stark contrast to the degrading outlook and culture of this system.

**Members want revolution so bad we are going to be scientific about it,** and work together as a team of scientists. The scientific method enables us to understand reality (by examining evidence, identifying patterns and root causes) and determine what's true by whether it correctly reflects reality—not by "what most people think," or who says it, or how it makes you feel.

- We work to study and apply the new communism, the scientific framework for human emancipation developed by Bob Avakian, along with ongoing leadership from @BobAvakianOfficial.
- We discuss and wrangle over how to understand the world, over what to do, over right and wrong. Inside the Corps we contribute our insights, and we raise our questions and disagreements—but when we collectively decide on something, we "run the experiment" and then draw the lessons together.

**Members strive for largeness of mind and generosity of spirit.** In the movement against oppression and injustice, we work to unite all who can be united and overcome divide and conquer schemes.

- We combat the "enemy within"—the putrid culture of snark, gossip, slander, pettyness, and tearing each other down—which destroys movements and makes it easier to target revolutionary leaders.
- We *welcome* discussion, debate, and criticism about what we stand for—but do not tolerate lies and slander against Bob Avakian and the Revcoms, whether it comes from servants of the system or opportunists who hate revolution more than they hate this system. Our enemies recognize the unique role that Bob Avakian is playing, and so do we.

**Members work to effect the serious organization and discipline that a real revolution requires,** and to act together in a unified way to have the impact we can't have alone.

- We report to Corps leadership regularly, and are responsible for commitments. We attend meetings and go out to the masses with revolution as much as we can, especially for key events and mobilizations.
- We represent for the Revcom Corps to the best of our ability, but only designated representatives are authorized to speak to the press or in any other official capacity.
- We are responsible for regular fundraising or donations (TBD with Corps leadership).
- We work to recruit others into the Corps *on the basis of the principles and methods of the Corps*.

# Joining with

THE REVCOM CORPS For The Emancipation Of Humanity, working actively and urgently for this revolution—putting our lives on the line not for ourselves alone, or for a narrow circle or clique, but for the emancipation of humanity: **that is something truly worth living for and dedicating your life to.**

–Bob Avakian

# The difference *you* can make in this revolution

...For those who hunger for a fundamentally different and much better world—*revolution is the way*. Revolution is hard—revolution requires sacrifice—but revolution can bring about an end to all the horrors that are caused by this system of capitalism-imperialism, that we are told to accept as just “the way things are,” or even “the way things were *meant* to be.”

What is more: In this time we are living in, now, this revolution is *possible*. And you can play an important part in determining whether that possibility has a chance to become a *reality*.

The organized forces for this revolution need to grow—and grow *quickly*—from small numbers to many hundreds, and then thousands.

In message number Nine I emphasized this crucial point: **With thousands organized into the ranks of the revolution, millions can be won to revolution; and with millions won to revolution, there could be a real possibility for this revolution to win...**

By stepping into the revolution and becoming part of its organized ranks, *you are helping to bring that crucial thousands into being*: making this revolution a growing and increasingly powerful force—continually drawing more people to the revolution—while you are continuing to learn more about this revolution and developing the ability to become a *leader* of the revolution.

By acting, together with others, to build up and manifest the organized strength, and the influence, of this revolution:

You are taking part in changing the way growing numbers of people *see things*, changing the situation in the country as a whole.

You are part of drawing more people *into the organized ranks* of the revolution and preparing masses of people, from different parts of society, for revolution.

You are contributing to *strengthening the leadership* masses of people *need* for this revolution.

There are millions of people who would actually love to see a fundamental change in the way society is organized and how people relate to each other—but they just don't know what that would mean or how that could happen.

By joining, and acting together, with others in the ranks of the revolution, for those millions—and millions more who had not yet even thought about how things could be radically different, in a better way—you become part of *bringing alive the reality* of this possibility.

And I want to say this particularly to those who have been led to believe that nobody cares what you think about things, and if you try to change things, it won't make any difference: Yes, you are powerless by *yourself*—but, *together with others as a growing revolutionary force, you can be part of working for the most powerfully inspiring thing there is—radically changing the world in a truly emancipating way, through a real revolution.*

The idea that you don't count for anything, and can't do anything to change things, is what those who rule over you *want* you to think. But the reality is the opposite of this—and that's why they don't want you to know it. **Especially when people who have been counted for nothing by this system have stood up and risen up together—fighting not for the garbage this system tells us we should be all about, but fighting instead for justice and liberation, with a broad vision, a largeness of mind and generosity of spirit—that has been an inspiration to people very broadly, in this country (and indeed throughout the world) in a way that might not have seemed possible before it happened.**

This has happened many times before—and it can happen again. It needs to happen, *now*. Especially now, when there are great upheavals, great dangers, and at the same time great positive possibilities in this world...when this whole country is being ripped apart by divisions, and those who rule over us are sharply divided in a way they haven't been since the Civil War way back in the 1860s, and when a radical change, of one kind or another, is very likely to be the outcome of all this. *It needs to be a radical revolutionary change*—it needs to be about the most inspiring and uplifting thing there is: a revolution to get rid of this murdering monstrosity of a system and get on the road of emancipating all of humanity. And, yes—you can, and must, play a huge role in all this.

This brings me back to this crucial truth: **With thousands organized into the ranks of the revolution, millions can be won to revolution; and with millions won to revolution, there could be a real possibility for this revolution to win.**

This is the challenge...This is the possibility...This is a precious opportunity that must not be missed—a rare chance to make a revolution—which must not be squandered (wasted, thrown away) but must be *actively seized by everyone* who hungers for a radically different and emancipating world.

### 3. Take action! Take the offensive in opposition to Trump/MAGA fascism and the system that has given rise to this fascism.

As Bob Avakian said in his 2025 New Years Message:

This is “not a time for accepting this Trump/MAGA fascism as ‘legitimate,’ and staying within the confines of ‘how things work’ under this system, as Democratic Party heads and other ‘mainstream’ ruling class representatives are urging people to do. It is not a time for turning inward and attempting to ‘take care of self’ as the juggernaut of Trump/MAGA fascism gains momentum and crushes masses of people. This is a time for reaching out to all the others who feel the same outrage at Trump/MAGA fascism—a time for collective action and self-sacrificing struggle for the greater good: the greater good of defeating this fascism.”

Protest. Resist. Defend the rights and lives of people targeted by Trump/MAGA fascism. Do not initiate violence. But DO act boldly, with courage and determination to STOP the crimes of this capitalist-imperialist system.

Reach out to us with your plans. When you act, take videos, pictures, and record statements to share on social media and tag/send to @TheRevcoms

In everything you’re doing, raise these slogans:

**IN THE NAME OF HUMANITY, WE REFUSE TO ACCEPT A FASCIST AMERICA!**

**THIS WHOLE SYSTEM IS ROTTEN AND ILLEGITIMATE. WE NEED AND WE DEMAND: A WHOLE NEW WAY TO LIVE, A FUNDAMENTALLY DIFFERENT SYSTEM!**

### 4. Get organized!

There is no good reason why the world has to be the way it is, with all its very real horrors.

There is no good reason why, beyond the massive death and destruction of World War 2, in the time since that war ended (in 1945) more than 500 million children have needlessly died from starvation and preventable disease, fundamentally because of the way the world, and in particular the poorer countries in the world, have been dominated by capitalism-imperialism, with the USA the “number one” imperialist predator.

There is no good reason why anyone, anywhere in the world, should go hungry, or be without decent housing, health care, and other basic necessities—or live in constant fear of going without these necessities.

No good reason for the endless wars and accelerating destruction of the environment, for which this system is fundamentally responsible.

No good reason why the dominant culture and ways of thinking should serve to reinforce murderously oppressive relations, while drilling into people’s heads the ridiculous notion that there is no positive alternative to all this.

No good reason why the long night continues in which human society has been divided into masters and slaves, and the masses of humanity have been lashed, beaten, raped, slaughtered, shackled and shrouded in ignorance and misery.

There is no good reason for all this, but there is one basic reason: the fact that the world and the masses of humanity are still forced to exist under the domination of this system of capitalism-imperialism.

This system is completely absurd—criminally, monstrously absurd—and completely outmoded: long past its expiration date, past the time when it can lead to anything positive for humanity—and, on the contrary, it stands as the direct barrier to the emancipation of humanity from all this madness, atrocity, and unnecessary suffering. The rise of fascism, in many other countries as well as in the U.S. itself, is a glaring sign of the thoroughly outmoded nature of this system and the heightened danger it poses to humanity as a whole.

**We are now at the point where it is more and more urgently necessary to move beyond this whole monstrous system—beyond a situation where people are forced to struggle just for individual survival, with everyone compelled to be in competition and conflict with others, and the masses of people everywhere are chained down by outmoded oppressive relations, while the future, and the very existence, of humanity is increasingly endangered.**

**And it is possible now to move beyond all this.**

–Bob Avakian

**With thousands  
organized into the ranks  
of the revolution, *millions*  
can be won to revolution;  
and with millions won to  
revolution, there could  
be a real possibility for  
this revolution to win.**

**-Bob Avakian**
